

Böttcher Chrome Roller Cleaner

RTU Chrome Roller Cleaner & Desensitizer

Uses

Ready-to-use chrome roller cleaner and desensitizer. Removes ink, ink glaze, size compounds and other contaminants. Removes oxidation to optimally restore the chrome roller's dampener efficiency.

Application

Directions For Use: Apply to a clean cloth. Rub the chrome roller with a polishing motion until clean. Wipe away any excess with a clean cloth. Do not rinse off any excess water. It is best to leave the residual on the chrome roller surface until start-up. There is no need to add any additional gum arabic treatment as this product contains 14°Be gum arabic.

Characteristics

- Ready-to-use
- Removes ink, glaze, size compounds and other contaminants.
