

Böttcherin Offset UV

Roller and Blanket Wash for UV/EB and Hybrid Inks

Uses

Böttcherin Offset UV is suitable for both manual cleaning and for use in automatic washing systems (brush roller). Böttcherin Offset UV can be used to clean UV, EB and hybrid inks.

Characteristics

- flashpoint approximately 180°F (82°C)
- high solvency for UV, EB and hybrid inks
- completely water miscible
- no chlorinated solvents
- controlled evaporation assures thorough cleaning and reduces usage
- compatible with UV (EPDM), conventional (NBR), and Chameleon rollers
- contains corrosion inhibitors
- low odor
- may attack image on un-baked positive plates

Application

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

We recommend to match the parameters of the washing unit to Böttcherin Offset UV. When manual cleaning, use Böttcherin Offset UV undiluted. Apply to the blanket and rinse with a water dampened rag.

Approvals

Böttcherin Offset UV is approved by the manufacturers Heidelberg, Komori and MAN for use in their machines. Approved for use with Heidelberg InstantStart UV System.
