

Feboclean 2000

Paste for Cleaning/Deglazing Rollers

Uses

Use Feboclean 2000 to deep clean the surface of ink rollers. Feboclean 2000 removes stubborn insoluble contaminants and restores surface nap. Regular use will help maintain a “like new” roller surface.

Characteristics

- Safely removes glaze from roller surface
- Will not harm NBR or EPDM rollers
- Aromatic free
- Contains no harsh solvents.
- Zero VOC (USEPA Method 24)
- High viscosity, easy to apply paste
- Contains no abrasives, will not cause plate wear

Application

After washing rollers using normal wash-up procedure, apply Feboclean 2000 to rollers with ink knife. Allow to run in for 5 to 10 minutes. Wash out of rollers using normal wash-up procedure. For deeper cleaning, allow Feboclean 2000 to set in rollers over night. The longer Feboclean 2000 is in contact with rollers the more contaminants it will remove.
