

# Böttcherin UV-60 S

## Roller and Blanket Wash for UV Printing

### Uses

Böttcherin UV-60 S is suitable for both manual cleaning and use in automatic washing systems to remove UV inks.

Follow the automatic washing system manufacturer's operating instructions. We recommend matching the parameters of the washing unit to Böttcherin UV-60 S.

### Characteristics

- flash point approximately 158°F (70°C)
- completely water miscible
- free of aromatics
- corrosion inhibited
- high wash quality
- slow evaporation
- economical
- designed for use in automatic washing systems (cloth systems)
- good chemical compatibility with UV resistant rubber rollers and blankets (EPDM and Chameleon)
- may attack image on un-baked positive plates

If manual cleaning, use Böttcherin UV-60 S undiluted. Apply to the blanket and clean with a water damped rag.

If manual cleaning with a hand rag, wear protective gloves during application. Follow all press safety instructions.

### Approvals

Böttcherin UV-60 S is approved by the manufacturers Baldwin and KBA-Planeta for use in their equipment.

### Application
